

**ONE  
NETBALL**

# ONE NETBALL. FOR EVERYONE.

**ONE NETBALL WAS CREATED WITH THE AIM TO MAKE NETBALL MORE ACCESSIBLE TO THE DIVERSE NEEDS OF AUSTRALIA'S POPULATION, IN SUPPORT OF NETBALL AUSTRALIA'S STRATEGIC VISION TO ENSURE THAT EVERYONE IN AUSTRALIA VALUES THEIR CONNECTION WITH NETBALL.**

Through the 'Our Neighbourhood' Community Program, Australia Post and Netball Australia have partnered to deliver the Australia Post One Netball Program (One Netball), which aims to utilise the power of netball to attract, mobilise and inspire individuals and communities.

Through One Netball, the netball community will be engaged and empowered to establish connections with new communities and participants, to encourage long-term involvement in the sport as players, coaches, umpires, administrators, volunteers or fans. This partnership will enable the existing work of One Netball to extend from the grassroots to the national level.

## **Our goals**

The goals of the Australia Post One Netball Program are to:

- Build capacity within netball to extend the reach of netball into diverse communities
- Engage Australia's netball community in a dialogue about creating more inclusive environments
- Invest in programs and activities that create connection within communities

## **Australia Post One Netball Program**

The Australia Post One Netball Program will include the following activities and initiatives:

- A One Netball website, hosting an interactive program and resources that will enable clubs and associations to understand, develop and improve their inclusive practices and actions
- One Netball seminars, delivered nationally by trained presenters to a variety of netball audiences, addressing basic principles of creating inclusive environments and their application at all levels of netball

- Five inspirational Australia Post One Netball Ambassadors
- One Netball Community Awards, celebrating individual and community efforts to engage and support diverse communities with netball
- Australia Post One Netball Round of the ANZ Championship
- 'Come and Try' Netball Clinics in each state and territory for communities new to netball

Australia's population is changing in size and diversity, as are the communities in which netball operates. One Netball presents us all with an opportunity to make our netball environments more inclusive for all, from the club house to the Diamonds.
